NEW PRICING ACCOUNCEMENT Effective March 1, 2004

Dear Colleague,

Please be advised that our lab test prices will be increasing effective March 1, 2004. This pricing covers increased charges from our reference laboratory, Antech Diagnostics, plus a more accurate reflection of costs for the professional interpretive review and comments. Our goal is to continue to offer our services to the veterinary community at reasonable rates.

We operate HEMOPET as a non-profit corporation dedicated to providing the highest quality lab test results and expert interpretations. Our canine blood products are supplied nationwide for transfusion needs. The rescued greyhounds at our facility are adopted into pet homes after serving one year in the donor program, thereby fulfilling our commitment to their welfare.

US DOLLARS

♥ Thyroid Antibody Profile (D8T)	\$57.50
♥ -- Add on TgAA to D8T for genetic screening	\$25.00
♥ Profile 7200 – CBC, Superchem & Thyroid Profile	\$79.50
♥ Profile SA150 – Distemper/Parvo Vaccine Titers	\$33.00
♥ von Willebrand Test (vWD)	\$53.00

Please call for other tests not listed here.

We would be happy to answer any questions you may have about these changes, and thank you for your support.

Cordially,

W. Jean Dodds, DVM
President

“Your source for life”

INSTRUCTIONS FOR TESTING

PRICES EFFECTIVE MARCH 1, 2004

Check Test Ordered	Test	Instructions	Cost
	THYROID ANTIBODY PROFILE (D8T)	If the patient is already on thyroid medication the blood should be drawn 4-6 hours after giving thyroid medication. Collect 3 to 5 mL of blood. Add to redtop tube or serum separator tube (SST). Allow to clot and centrifuge to separate serum. DO NOT SEND UNSEPARATED BLOOD. Transfer serum to empty redtop or plastic tube. 1.0 mL serum is REQUIRED for the Thyroid Antibody Profile. Test includes T3, T4, free T3, free T4, T3 autoantibodies and T4 autoantibodies.	\$57.50
	TgAA, Add on to D8T	Note: Good for genetic screening. Send extra 0.5 mL separated serum.	\$25.00
	VON WILLEBRAND TEST vWD (S17123)	Take 1 mL separated plasma from a citrate tube (light blue) and transfer plasma to empty redtop or plastic tube. Include ice pack when shipping, but do not freeze sample. Clearly label the tube as "PLASMA". Note: 7 days processing time.	\$53.00
	PROFILE 7200 includes CBC, Differential & Superchem including liver enzymes and D8T	Send 1 mL whole blood in lavender-top tube (EDTA) AND 1.5 mL separated serum as described above for D8T Thyroid Antibody Profile. Include ice pack when shipping, but do not freeze sample.	\$79.50
	D2 includes CBC, Differential & Superchem (SA020)	Send 1 mL whole blood in lavender-top tube (EDTA) AND 1.5 mL separated serum as described above for D8T Thyroid Antibody Profile. Include ice pack when shipping, but do not freeze sample.	\$48.00
	BROMIDE PROFILE (T730)	Blood sample should be drawn 4-6 hours after giving medication. 1.0 mL serum is required. <u>Please use redtop tube only, NOT SST tube.</u>	\$49.00
	PHENOBARBITAL PROFILE (T750)	Blood sample should be drawn 4-6 hours after giving medication. 1.0 mL of serum is required. <u>Please use redtop tube, NOT SST tube.</u>	\$41.00
	SERUM BILE ACIDS PRE & POST (T220)	1 st tube is fasting, 2 nd tube is 2-4 hours post-fatty meal. 1.0 mL separated serum in each tube. Label tubes clearly 1 st & 2 nd .	\$40.00
	URINE BILE ACIDS (85645)	Freshly collected urine, 3 mL.	\$39.00
	DISTEMPER & PARVO TITERS (SA150)	Send 1.0 mL separated serum.	\$33.00
	PANLEUKOPENIA VACCINE TITER (S16053)	Send 1.0 mL separated serum.	\$33.00
	RABIES VACCINE TITER (S16685)	Send 1.5 mL serum in red top or plastic tube. Note: 10 - 20 days processing time.	\$73.00
